IMMIGRANT ARRIVALS TO ONTARIO

THE PROVINCE OF INTENDED DESTINATION CANADA WITH ONTARIO AS OH IMMIGRANT LANDINGS

JANUARY 1, 1981 TO DECEMBER 31, 1981

INTRODUCTION

The summary and tables presented in this report pertain to the total number of immigrants landing in Canada in the 1981 calendar year for whom Ontario was the province of destination.

A number of changes have been made both in terminology and in the presentation of the immigrant landing statistics. These changes affect a number of the tables:

COMMUNITY OF DESTINATION

The number of communities for which the statistics in all the tables are shown has been increased for Waterloo are now combined with those for Kitchener. In another change, the figures indicated to 22 from 18, to include Brampton, Burlington, Mississauga and Oakville. As well, the figures for Toronto are now for Metropolitan Toronto rather than for the City of Toronto as in previous There has also been a re-calculation of the figures for Windsor which were underrepresented in previous years' tables. tabulations.

IMMIGRANT CATEGORY (Table 1)

to numerous A summary of the definitions used by Employment and Immigration Canada for the various immigrant This has been included in response categories is appended at the back of this report.

LAST PERMANENT RESIDENCE AND COUNTRY OF BIRTH (Tables 2 and 3) COUNTRY OF

No change

AGE AND SEX (Tables 4 and 4A)

Table 4A has been included to show sex and age as a percentage of the total population in addition to the original Table 4 which indicates the age distributions for each sex category

OFFICIAL LANGUAGE ABILITY (Table 5)

Employment and Immigration Canada has adopted this terminology in place of "Canadian Language Capability" used previously.

MOTHER TONGUE (Table '

Employment and Immigration Canada has adopted this terminology in place of "Native Language" used previously.

8 and 8A) SCHOOLING AND INTENDED OCCUPATION (Tables 6, 6A,

the total immigrant population. This has been done to provide consistency in relating immigrant data to the Census of Canada. For the latter, Statistics Canada obtains information about edu-For each of these characteristics, an additional table has been included to show the figures for the immigrant population 15 years of age and over in addition to the original tables for

INTENDED WORK FORCE PARTICIPATION (Table 8B)

force. Also in Tables 8 and 8A, which present intended occupation, the percentages are based on This is a new table, showing the number and percentage of immigrants intending to enter the work the number of immigrants intending to enter the work force rather than for the total immigrant in the 1980 tables. population as

Note that Tables 4A, 6A and 8A were included in the set of immigrant landing tables for the first six months of 1981. Since, however, the six-months' figures do not include a summary, attention was not drawn to these additions in the earlier set of tables. The total number of immigrant landings to Canada with Ontario as the province of intended destination in 1981 was reported by Employment and Immigration Canada to be 54,890, a decrease of 7,060 over the 1980 total of 61,950 but greater by 8,633 over the 1979 total of 46,257.

COMMUNITY OF DESTINATION

As indicated in the Introduction, 4 communities have been added to the tables, bringing the total number to 22. For the first time, the tables show the number of immigrants destined to Brampton, Burlington, Mississauga and Oakville, while the figures for Waterloo are shown with Kitchener as follows:

750	436	3,303	428	1,201
Brampton	Burlington	Mississauga	Oakville	Kitchener-Waterloo

Ontario coded by Employment and Immigration Canada for 1981 indicates that for the more than 300 This reduces the percentage in the "other" category to 15 percent from the 40 percent shown in 1980 and the 35 percent in 1979. A detailed examination of all of the geographic locations in communities of destination coded and not included in these tables, the number of immigrants to each ranged from zero to 210 with an average of 26 immigrants per community.

of Towonto, as noted in the Introduction, accounts for the apparently big increase to 53 percent The fact that the figures for Toronto are now for Metropolitan Toronto rather than for the City in 1981 compared to 38 percent shown for Toronto in 1980. Metropolitan Toronto remains the largest centre of attraction for Ontario-bound immigrants with, as noted, 53 percent headed there. When the percentages for Mississauga and Brampton are added, it is clear that more than 60 percent of Ontario's immigrants in 1981 planned to settle in the Metropolitan Toronto-Peel Region area of the province. Outside of this area, Ottawa attracted the most immigrants--3,042 in number--accounting for 6 percent of the total, a slight increase Six other urban centres were the destination for approximately 11 percent of Ontario's immigrants: Hamilton (3 percent), London, Kitchener-Waterloo and Windsor (approximately 2 percent each) and Cambridge and St. Catharines (approximately 1 percent each).

IMMIGRANT CATEGORY (Table 1)

The 1981 province-wide distri-The immigrant categories are determined by the Federal Government. bution for the various categories is shown below:

IMMIGRANTS DESTINED FOR ONTARIO 1981

PERCENT	42.6	13.0	10.1	32.1	2.3	100
NUMBER	23,365	7,105	5,523	17,624	1,273	54,890
IMMIGRANT CATEGORY	Family Class	Assisted Relatives	Refugees & Designated Classes	Independents	Others	TOTAL

of approximately 10,000 in the refugees and designated classes together with an increase of approrelation to the total Ontario-bound immigration, family class increased by 5, assisted relatives The decline in the total number of immigrants to Ontario of 7,060 is a reflection of a decrease by 4, and independents by 7 percent respectively, while the refugees and designated classes decreased from 25 to 10 percent. As a result, the family class immigrants and the independents imately 2,000 in the independents category and of 1,400 in the assisted relatives category. constituted the largest proportions of 1981 Ontario immigrants.

and designated classes. The fact that 16 percent of those in the refugees and designated classes 20 percent of the independents were bound for "other localities" indicates a wider dispersal independents were headed for Metropolitan Toronto as were 40 percent of those in the refugees More than half of those in the family and assisted relatives categories and just half of the

across the province of those in these categories to communities other than the 22 listed, in contrast to immigrants in the family class and assisted relatives (12 percent each)

COUNTRY OF LAST PERMANENT RESIDENCE (Table 2)

ing the decrease in the number and proportion of refugees in 1981. Immigration from Asian countries a slightly higher percentage of 19 compared to 15 percent in 1980. The United Kingdom was followed by the Caribbean and Guyana with 11 percent, a slight increase over 1980. Vietnam, which was the country of last permanent residence for 15 percent in 1980, accounted for only 5 percent, reflectgenerally (excluding the Middle East) declined to 30 percent in 1981 in contrast to 41 percent in 1980, again reflecting the decrease in the number of refugees to Ontario. There were very slight percent in 1980, an increase accounted for largely by higher proportions from Eastern Europe and from the western and northern European areas, while immigration from the Mediterranean countries The largest source country of immigrants destined for Ontario in 1981 was the United Kingdom, by Immigration from all European countries other than the United Kingdom rose in 1981 to 21 from 17 increases in the proportions of immigrants from South Asia, Hong Kong, and the Philippines. remained at approximately the same level.

COUNTRY OF BIRTH (Table 3)

figures do indicate small numbers of immigrants coming to Ontario from the United Kingdom, the United States and Hong Kong who were born elsewhere, although the percentage differences are slight. The proportions of immigrants born in specific countries or within the larger areas shown are very similiar to those for country of last permanent residence as noted in the preceding paragraph.

AGE AND SEX (Tables 4 and 4A)

the proportions over 21 years of age and slight declines for those age 21 or lower. The proportion of adult immigrants (over 21) increased to 72 percent from 69, with almost 60 percent of these in the 22 to 44 years of age category. As in 1980, half of the near 30 percent in the under-19 age The age distribution of 1981 immigrants was comparable to that for 1980 with slight increases in groups were in the 5 to 14 age bracket.

year: by 1,306 compared to 510 in 1980 and 1,600 in 1979. The difference was reflected largely in the over-45 and the 19 to 21 age groups, although male immigrants outnumbered females by small Female immigrants continued to outnumber males, but by more than twice the numbers for the previous percentages in all age categories below 19.

OFFICIAL LANGUAGE ABILITY (Table 5)

A considerable increase occurred in 1981 in the proportion of immigrants having English language points to 40 percent in 1981. Again, approximately 4 percent either knew French or both English versely, the proportion of immigrants with neither official language declined by 10 percentage having both English and French. This constitutes a percentage increase of 10 over 1980. Concapability, with 56 percent indicating English language capability only and another 2 percent and French.

YEARS OF SCHOOLING (Table 6 and 6A)

The province-wide distribution for years of schooling of 1981 immigrants is set out below:

Immigrants age 15 and over intending to enter the work force Number Percent	11.0	17.0	40.8	30.8	0.4	100
Immigrants a intending to Number	4,781					43,508 10
All immigrants Number Percent	24.7	17.8	32.6	24.4	0.4	100
All immi Number	13,570	9,788	17,901	13,392	239	54,890
Years of Schooling	Under 5	5 to 8	9 to 12	13 or more	Not stated	TOTAL:

decline in the proportions of those with 8 years or less to 42 percent as compared with 50 percent in 1980. Of those immigrants intending to enter the work force, the proportion of those with However, the percentage of those with 13 or more years of schooling increased by As in 1980, the largest proportion of immigrants, almost a third, have from 9 to 12 years of percent with 13 or more years. Only 11 percent of those heading for the work force had less percent to 24, almost a quarter of all the 1981 immigrants. This was counter-balanced by a schooling was considerably higher: 41 percent with 9 to 12 years and 31 9 years or more of than 5 years. schooling.

MOTHER TONGUE (Table 7)

Once again, English predominates as the mother tongue, increasing to 38 percent compared with 30 percent in 1980, followed by Cantonese (10 percent in 1981 compared to 12 in 1980). South Asian and South-East Asian languages were characteristic of 9 and 7 percent of 1981 immigrants respecrespectively, a slight increase from the previous year. Only 2 percent indicated Vietnamese, tively, while Eastern European and Other European languages were reported by 8 and 7 percent down from 9 percent in 1980. A summary table of mother tongues is set out below:

MOTHER TONGUE	NUMBER 20 660	PERCENT
French	410	0
Other European	13,673	24.9
Aslan Other	2,993	ا ا ا ا
TOTAL:	54,890	100

(Table 8,8A, and 8B) INTENDED OCCUPATION AND WORK FORCE PARTICIPATION

Of the 1981 immigrants 15 years of age and over, 74 percent intended to enter the work force. remaining one-quarter included students, spouses and others.

in professional and technical fields, 15 percent in the manufacturing, mechanical and operating Eighteen percent of the 1981 immigrant labour force population age 15 and over were classified The percentages for the other occupational categories ranged from 3 to less than categories, 9 percent in sales and service, and 5 percent in managerial and administrative occupations.

included immigrants under 15 years of age and the percentages were based on the total immigrant Comparisons with the occupational distribution of 1980 immigrants are difficult because of the changes in the presentation of the statistics for 1981, particularly since the 1980 figures the labour force. population including those not intending to enter PAGE 01

APPENDIX

IMMIGRANT CATEGORY - DEFINITIONS*

the family class, Convention Canada's Immigration Act sets forth three basic classes of admissible immigrants: refugees, and independent and other inmigrants (including assisted relatives).

Family Class

least 18 years of age and residing in Canada. The Act specifies eight categories of relatives eligible for admission specified standards. The sponsoring relative in Canada is required to sign a statement promising to provide for the under the family class. Individuals in the family class will not be assessed under the point system, but must meet The family class is comprised of certain close relatives sponsored by a Canadian citizen or permanent resident at lodging, care and maintenance of the applicant and accompanying dependents, for a period of up to ten years.

Convention Refugees

The refugee class is based on the definition from the United Nations Convention and Protocol Relating to the Status to Canadian life and on the amount of settlement assistance available to them in Canada, or are admitted on humaniof Refugees. Refugees seeking resettlement in Canada are assessed against factors relating to their adaptability tarian grounds in times of crisis.

Independent and Other Immigrants

This class includes assisted relatives (see below), entrepreneurs, retired persons, those who intend to be selfemployed, and others who apply to immigrate on their own initiative at Canadian government offices abroad. for retirees, persons in this class are assessed and selected according to the point system.

Assisted Relatives

These are people, other than members of the family class, who have kin in Canada willing to help them get established The Immigration Act specifies the categories of relatives eligible to apply under this category. system applies. here.

IMMIGRANT LANDINGS TO CANADA WITH ONTARIO AS THE PROVINCE OF INTENDED DESTINATION IMMIGRANT ARRIVALS TO ONTARIO

JANUARY I TO DECEMBER 31, 1982

INTRODUCTION

The summary and tables presented in this report pertain to the total number of immigrants landing in Canada in the 1982 calendar year for whom Ontario was the province of intended destination.

official language and for mother tongue, have been placed together, and the table on work force participation now precedes the table immigrants 15 years of age and over, rather than the entire immigrant population, to provide comparability with the Canadian census In this report, there has been a slight change over that for 1981 with respect to the ordering of the tables: the two language tables, for showing intended occupation. And in both the work force participation and intended occupation tables, figures are shown only for

As in the 1981 report, a summary of the definitions used by Employment and Immigration Canada for the various immigrant categories is appended at the back of this report. This has been included in response to numerous queries.

SUMMARY

than the 1980 total. There appear to be only slight changes, with a few exceptions, in the composition and characteristics of the 1982 The total number of immigrant landings to Canada with Ontario as the province of intended destination in 1982 was reported by Employment and Immigration Canada to be 53,031, a decrease of only 1,859 over the 1981 total of 54,890 which in turn was 7,060 less immigrants in contrast to those arriving in 1981.

Community of Destination

Figures are shown for the same 22 Ontario communities as in the 1981 report and they account for 84 percent of the Ontario-bound

The Metropolitan Toronto-Peel Region area of the province again attracted 60 percent of Ontario's immigrants with 53 percent headed for The 1982 percentage distribution for urban centres outside of this area was similar to that for 1981: Ottawa (6 percent); Hamilton (3 percent); London, Kitchener-Waterloo and Windsor (approximately 2 percent each); and Cambridge and St. Catharines (approximately 1 percent Metropolitan Toronto and 7 percent to Mississauga and Brampton. These percentages are identical to those for 1981.

Immigrant Category (Table 1)

The immigrant categories are determined by the Federal Government. The 1982 province-wide distribution for the various categories is shown below:

Immigrants Destined for Ontario, 1982

Immigrant Category	Number	Percent
Family Class	22,696	42.8
Assisted Relatives	5,801	10.9
Refugees & Designated Classes	6,981	13.2
Independents	17,270	32.6
Others	283	0.5
Total	53,031	100

The only notable differences over 1981 are a slight decrease (by 2 percent) in the proportion of assisted relatives and a correspondingly slight increase (by 3 percent) in refugees. There was very little change in the distributions for the 22 communities of those in the various immigrant categories. As in 1981, more than half of those in the family and assisted relatives categories and just half of the independents were headed for Metropolitan Toronto as were 45 percent of those in the refugees and designated classes, the figure for the latter representing a 5 percent increase over the previous year. Independents were more widely dispersed outside of major urban centres, with 21 percent heading to "other" localities, than those in any of the other immigrant categories. Overall, however, the percentage differences from 1981 to 1982 for the specific communities outside of Metropolitan Toronto were slight.

Country of Last Permanent Residence (Table 2)

The largest source country of immigrants destined for Ontario in 1982 was once again the United Kingdom, although with a slightly lower percentage of 16 in contrast to 19 percent in 1981 and closer to the 1980 figure of 15 percent. The United Kingdom was again followed by the Caribbean and Guyana with 12 percent, a very slight increase over 1981. The major shift was with respect to immigration from Eastern Europe which increased to 11 percent from 7 in 1981 and 5 in 1980. This occurred largely because of the increase in the number of immigrants from Poland, almost double in 1982 over the 1981 figures, bringing their numbers to 4,093 compared to 1,835 in 1981; immigrants from Poland accounted for 70 percent of the Eastern European immigration in 1982 compared to 47 percent in 1981.

East Asian countries from 22 to 7 percent, while immigration from all of Europe, including the United Kingdom, increased from 32 to 40 percent between 1980 and 1981. Immigration from all Asian countries, excluding the Middle East, declined from just under a half to less immigrants from the People's Republic of China. Immigration from Central and South America (excluding the Caribbean and Guyana) has Otherwise, there was little change in the proportion of immigrants from various source areas of the world in 1982 over 1981. The major change had occurred previously, between 1980 and 1981, when immigration from Vietnam declined from 15 to 5 percent and from all South than a third of the total immigration between 1980 and 1982; some of this reflected a decrease of just over 700 in 1982 of the number of remained relatively stable over this period,

The following table sets out the percentage distribution of immigrants from source areas for 1980, 1981 and 1982:

Immigrants to Ontario from Areas of Last Permanent Residence

Percentages

Source Area	1980	1861	1982
All Europe (including United Kingdom)	32.3	39.5	40.5
Caribbean and Guyana	10.0	10.9	12.4
Central and South America (excluding Guyana)	2.8	3.4	3.8
United States of America	6.2	7.7	7.3
Asia (excluding Middle East)	41.1	29.5	27.5
Middle East (including Israel)	3.5	4.3	4.2
All Other	4.2	4.8	4.4
Total	100	100	100

Country of Birth (Table 3)

The proportions of immigrants born in specific countries or within the larger areas shown are again very similar to those for country of last permanent residence. As in 1981 the figures do indicate small numbers of immigrants coming to Ontario from the United Kingdom, the United States and Hong Kong as well as from Europe who were born elsewhere, although in 1982 there was a slightly higher proportion of immigrants born in Eastern Europe who immigrated from some other area. Overall, the percentage differences were slight.

Age and Sex (Table 4 and 4A)

The age distribution of 1982 immigrants was comparable to that for 1981 with a slight increase in those between ages 22 and 44. Twothirds of the 1982 immigrants were over 22 years of age, with the remaining one-third, of course, 21 years of age or under. Twenty percent were less than 15 years of age. The proportion of seniors, age 65 and over, remained relatively stable. Female immigrants again barely outnumbered males in 1982, by only 1,035 compared to 1,306 in 1981 and 510 in 1980. Again, the difference was reflected largely in the over-45 and the 19 to 21 age groups, although male immigrants outnumbered females by small percentages in all age categories below 19.

Official Language Ability (Table 5)

A very slight increase occurred in 1982 in the proportion of immigrants having English language capability, with 57 percent indicating English language capability only and another 3 percent having both English and French. Conversely, the proportion of immigrants with neither official language declined by one percentage point to 39 percent in 1982. Again, approximately 4 percent either knew French or both English and French.

Mother Tongue (Table 6)

in 1981, it was still considerably higher than the 31 percent figure for 1980. English was followed by Cantonese (9 percent in 1982 compared to 10 percent in 1981 and 12 percent in 1980). As in 1981, South Asian and South East Asian languages were characteristic of 9 and 7 percent of 1982 immigrants respectively. Eastern European languages increased to 13 percent compared with 9 percent in 1981 and Once again, English predominated as the mother tongue; although the percentage figure declined to 35 percent compared with 38 percent only 6 percent in 1980. A summary table of the 1982 mother tongue distribution is set out below:

Percent	35.4	0.7	29.1	30.8	4.1	100
Number	18,748	345	15,457	16,333	2,148	53,031
Mother Tongue	English	French	Other European	Asian	Other	Total

Years of Schooling (Table 7 and 7A)

The province-wide distribution for years of schooling of 1982 immigrants is summarized below:

Years of Schooling, Ontario Immigrants, 1982

			Immigrants A	Immigrants Aged 15 and Over
	All Imn	nigrants	Intending to Ent	Intending to Enter the Work Force
Years of Schooling	Number Percent	Percent	Number	Percent
Under 5	12,366	23.3	4,132	8.6
5 to 8	8,875	16.8	6,625	15.6
9 to 12	16,933	31.9	16,758	39.6
13 or more	14,796	27.9	14,781	34.9
Not stated	61	0.1	52	0.1
Total	53,031	100	. 43,348	100

from 9 to 12 years of schooling. However, the percentage of those with 13 or more years of schooling rose to 28 percent, an increase of 9 percent over the 1980 figures. This was counter-balanced by a decline in the proportions of those with 8 years or less to 40 percent as The educational level of immigrants has increased in recent years. As in 1981, the largest proportion of immigrants, almost a third, had compared with 50 percent in 1980.

Of those immigrants intending to enter the work force, the major change between 1981 and 1982 was a 4 percent increase in 1982 in those with 13 or more years of schooling and a decline by a comparable amount of those with less than eight years. Only 10 percent of those heading for the work force in 1982 had less than 5 years of schooling. (Figures showing the level of schooling for immigrants 15 years of age and over are not available for 1980.)

Work Force Participation and Intended Occupation (Table 8 and 9)

Three-quarters of the 1982 immigrants 15 years of age and over intended to enter the work force, a slight increase over 1981. The remaining one-quarter included students, spouses and others.

One-fifth of the 1982 immigrants (20 percent) were headed for professional and technical occupations, a slight increase over 1981, while 15 percent were classified in manufacturing, mechanical and operating occupations (no change over 1981). Clerical workers declined slightly to 9 percent, while there was no change with respect to sales and service occupations (9 percent) nor managerial and administrative occupations (5 percent). As in 1981, the percentages for the other occupational categories ranged from 3 to less than 1

IMMIGRANT LANDINGS TO CANADA WITH ONTARIO AS THE PROVINCE OF INTENDED DESTINATION IMMIGRANT ARRIVALS TO ONTARIO

JANUARY 1 TO DECEMBER 31, 1983

INTRODUCTION

The summary and tables presented in this report pertain to the total number of immigrants landing in Canada in the 1983 calendar year for whom Ontario was the province of intended destination, In this report, table numbers have been changed slightly from those in the previous volume as has the order of some of the tables for greater readability,

As in the 1982 report, a summary of the definitions used by Employment and Immigration Canada for the various immigrant categories is appended at the back of this report. This has been included in response to numerous queries,

SUMMARY

The total number of immigrant landings to Canada with Ontario as the province of intended destination in 1983 was reported by Employment and Immigration Canada to be 40,036, a decrease of almost 13,000 compared to 53,031 in 1982 and the 1981 total of 54,890.

Community of Destination

Figures are shown for the same 22 Ontario communities as in the 1982 report and they account for 85 percent of the Ontario-bound immigrants.

The Metropolitan Toronto-Peel Region area of the province attracted 62 percent of Ontario's immigrants with 55 percent headed for Metropolitan Toronto and 7 percent to Mississauga and Brampton. This represents a slight increase of 2 percent for Metropolitan Toronto over 1981. The 1983 percentage distribution for urban centres outside of this area was similar to that for 1982: Ottawa (6 percent); Hamilton (3 percent); London, Kitchener-Waterloo and Windsor (approximately 2 percent each); and St. Catharines (approximately 1 percent).

Immigrant Category (Table 1)

The immigrant categories are determined by the Federal Government. The 1983 province-wide distribution for the various categories is

Immigrants Destined for Ontario, 1983

Immigrant Category	Number	Percent
Family Class	22,611	56.5
Assisted Relatives	2,401	0.9
Refugees & Designated Classes	6,068	15.2
Independents	8,956	22.4
Total	40,036	100

The only notable differences over 1982 are a considerable increase (by 14 percent) in the proportion in the family class along with a decline in the independents and assisted relatives categories of 10 and 5 percent respectively,

There was very little change in the distributions for the 22 communities of those in the various immigrant categories. In 1983, 60 percent of those in the family and assisted relatives categories and just over half of the independents were headed for Metropolitan Toronto, as Independents continued to be more widely dispersed outside of major urban centres, with 23 percent heading to "other" localities, than those in any of the other immigrant categories. Overall, however, the percentage differences from 1982 to 1983 for the specific were 45 percent of those in the refugees and designated classes, the figure for the latter being similar to that of the previous year. communities outside of Metropolitan Toronto were slight,

Country of Last Permanent Residence (Table 2)

The most notable change in the source countries of immigrants destined for Ontario in 1983 was the decline of the United Kingdom from 1st to 5th place (providing 8 percent compared to 16 and 19 percent in 1982 and 1981 respectively). This change was accompanied by a and Central and South America (to 14, 8 and 6 percent respectively). The proportion of immigrants from Eastern Europe remained 7 percent increase to 34 percent for Asian immigrants and a modest increase for those from the Caribbean and Guyana, the United States, relatively stable (almost 12 percent compared to 11 in 1982).

Eastern Europe, South Asia and the United States, with the U.S. now in fourth place compared to sixth in 1982. Hong Kong moved up one The decline in the United Kingdom as a source area to fifth place resulted in the Caribbean and Guyana assuming first place followed by to sixth place followed by Eastern Europe (down from fourth place in 1982). Vietnam remained in eighth position while Central and South America, and the Phillipines reversed position as the last two of the ten leading source areas.

The following table sets out the percentage distribution of immigrants from source areas for 1980, 1981, 1982 and 1983;

Percentages

Source Area	1980	1861	1982	1983	
United Kingdom	15.0	18.0	15.9	7.7	
Other Europe	17.3	20.5	24.6	22.0	
Caribbean and Guyana	10.0	10.9	12.4	13.6	
Central and South America (excluding Guyana)	2.8	3.4	3.8	5.7	
United States of America	6.2	7.7	7.3	8.4	
Asia (excluding Middle East)	41.1	29.5	27.5	34.0	
Middle East (including Israel)	3.5	4.3	4.2	3.7	
All Other	4.2	4.8	4.4	4.9	
Total	100	100	100	100	

Country of Birth (Table 3)

The proportions of immigrants born in specific countries or within the larger areas shown are again very similar to those for country of last permanent residence. As in 1982 the figures do indicate small numbers of immigrants coming to Ontario from the United Kingdom, the United States and Hong Kong as well as from Europe who were born elsewhere, and again there was a slightly higher proportion of immigrants born in Eastern Europe who immigrated from some other area. The most notable difference was with respect to immigration from Hong Kong where the percentage was 8 percent for Country of Last Permanent Residence compared to 5 percent for Country of Birth. Overall, however, the percentage differences were slight.

Age and Sex (Tables 4 and 5)

44, continuing a trend noted in the previous year. Again, two-thirds of the 1983 immigrants were over 22 years of age, with the remaining one-third, of course, 21 years of age or under. The percentage of those less than 15 years of age dropped to 15 percent. The proportion of The age distribution of 1983 immigrants was somewhat comparable to that for 1982 with a slight increase in those between ages 22 and seniors, age 65 and over, increased slightly.

Female immigrants outnumbered males in 1983 to a much greater extent (3,700) compared to only 1,035 in 1982, 1,306 in 1981 and 510 in 1980. As a result, the percentage gap between males and females widened overall to 9 percent, and was most notable in the 45 to 64 age category where the difference was approximately 60 percent (female) to 40 percent (male). Females also out-proportioned males in other adult categories (by 13 percent for the 19 to 21 age group and 7 percent for those between 22 and 44). The percentage difference for seniors (age 65 and over) remained relatively constant with 15 percent more females. Male immigrants outnumbered females by small percentages in all age categories below 19.

Years of Schooling (Tables 6 and 7)

The province-wide distribution for years of schooling of 1983 immigrants is summarized below:

Years of Schooling, Ontario Immigrants, 1983

Vears of Schooling	AllImn	All Immigrants Umber Percent	Intending to Ent	Intending to Enter the Work Force	
S OF SCHOOLING	19GILIDAY	10000			
er 5	8,632	21.6	3,577	10.7	
∞	7,601	19.0	6,058	18.2	
12	13,472	33.7	13,347	40.1	
r more	10,165	25.4	10,151	30.5	
Not stated	166	0.4	166	0.5	
Total	40,036	100	33,299	100	

As in 1982, the largest proportion of immigrants, a third, had from 9 to 12 years of schooling. However, the percentage of those with 13 or more years of schooling declined to 25 percent, a decrease of 3 percent over the 1982 figure. The proportions of those with 8 years or less remained at 40 percent, compared with 50 percent in 1980.

Of those immigrants intending to enter the work force, the major change between 1982 and 1983 was a 4 percent decline in 1983 in those with 13 or more years of schooling and a 3 percent increase for those with five to eight years. Only 11 percent of those heading for the work force in 1983 had less than 5 years of schooling.

Work Force Participation and Intended Occupation (Tables 8 and 9)

Seventy-two percent of the 1983 immigrants 15 years of age and over intended to enter the work force, a slight decrease from the 75 percent in 1982. The remainder included students, spouses and others.

increase in unidentified workers (to 45 percent from 37 percent in 1982) was reflected in lower proportions in most other occupational Only 13 percent of the 1983 immigrants were headed for professional and technical occupations, a decrease from 20 percent in 1982. categories as well, although not as dramatically.

Mother Tongue (Table 10)

mother tongue continued to decline in 1983 to 29 percent compared to 35 percent in 1982 and 38 percent in 1981. In fact, the 1983 proportion dipped below the 31 percent figure for 1980. English was followed by Cantonese (12 percent in 1983, compared to 9 percent in slightly increased from the previous year. Eastern European languages declined slightly. Spanish was the mother tongue of 5 percent of Seventy-one percent of 1983 immigrants to Ontario reported a non-English mother tongue. The percentage of immigrants with English 1982). South Asian and South East Asian mother tongues were characteristic of 10 and 8 percent of 1983 immigrants respectively, both Ontario's 1983 immigrants. A summary table of the 1983 mother tongue distribution for Ontario is set out below:

Percent	29.0	9.0	28.3	34.8	7.3	100
Number	11,619	231	11,336	13,934	2,916	40,036
Mother Tongue	English	French	Other European	Asian	Other	Total

Official Language Ability (Table 11)

The proportion of immigrants without ability in either English or French increased to 44 percent in 1983 compared to 39 percent in 1982, while the proportion with English language ability only declined five percentage points to 52 percent. Three percent knew either French only or both English and French.

APPENDIX

IMMIGRANT CATEGORY - DEFINITIONS*

class, Convention refugees, and independent and other immigrants (including assisted relatives). Canada's Immigration Act sets forth three basic classes of admissible immigrants: the family

Family Class

dent at least 18 years of age and residing in Canada. The Act specifies eight categories of relatives eligible for admission under the family class. Individuals in the family class will not This class consists of certain close relatives sponsored by a Canadian citizen or permanent resiin Canada is required to sign a statement promising to provide for the lodging, care and maintebe assessed under the point system, but must meet specified standards. The sponsoring relative nance of the applicant and accompanying dependants, for a period of up to ten years.

Convention Refugees

factors relating to their adaptability to Canadian life and on the amount of settlement assistance Relating to the Status of Refugees. Refugees seeking resettlement in Canada are assessed against The refugee class is based on the definition from the United Nations Convention and Protocol available to them in Canada, or are admitted on humanitarian grounds in times of crisis.

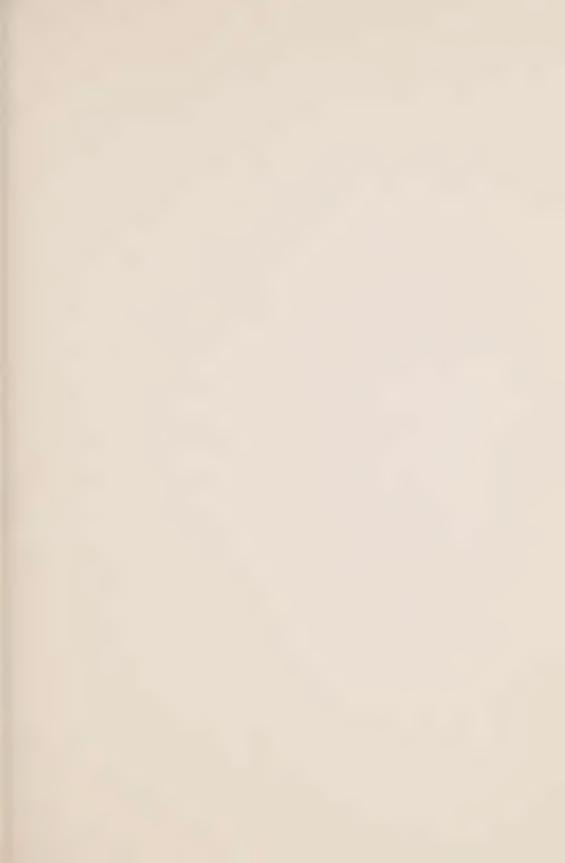

Independent and Other Immigrants

intend to be self-employed, and others who apply to immigrate on their own initiative at Canadian assessed and selected This class includes assisted relatives (see below), entrepreneurs, retired persons, those who government offices abroad. Except for retirees, persons in this class are according to the point system.

Assisted Relatives

them get established here. The Immigration Act specifies the categories of relatives eligible to These are people, other than members of the family class, who have kin in Canada willing to help The point system applies. apply under this category.

Immigration Canada. Readers wishing further detail are referred directly to that source or to the Source: The above descriptions have been excerpted from materials published by Employment and Immigration Regulations, 1978.

IMMIGRANT CATEGORY - DEFINITIONS*

Convention refugees, and independent and other immigrants (including assisted relatives) Canada's Immigration Act sets forth three basic classes of admissible immigrants: the family

Family Class

This class consists of certain close relatives sponsored by a Canadian citizen or permanent resident at least 18 years of age and residing in Canada. The Act specifies eight categories of relin Canada is required to sign a statement promising to provide for the lodging, care and mainteatives eligible for admission under the family class. Individuals in the family class will not be assessed under the point system, but must meet specified standards. The sponsoring relative nance of the applicant and accompanying dependants, for a period of up to ten years.

Convention Refugees

factors relating to their adaptability to Canadian life and on the amount of settlement assistance Relating to the Status of Refugees. Refugees seeking resettlement in Canada are assessed against The refugee class is based on the definition from the United Nations Convention and Protocol available to them in Canada, or are admitted on humanitarian grounds in times of crisis.

Independent and Other Immigrants

intend to be self-employed, and others who apply to immigrate on their own initiative at Canadian Except for retirees, persons in this class are assessed and selected This class includes assisted relatives (see below), entrepreneurs, retired persons, those who according to the point system. government offices abroad.

Assisted Relatives

The Immigration Act specifies the categories of relatives eligible to These are people, other than members of the family class, who have kin in Canada willing to help The point system applies. them get established here. apply under this category.

IMMIGRANT LANDINGS TO CANADA WITH ONTARIO AS THE PROVINCE OF INTENDED DESTINATION IMMIGRANT ARRIVALS TO ONTARIO

JANUARY I TO DECEMBER 31, 1984

INTRODUCTION

The summary and tables presented in this report pertain to the total number of immigrants landing in Canada in the 1984 calendar year for whom Ontario was the province of intended destination,

In this report, changes have been made in the categories shown on several tables to reflect changing immigration trends,

The Independent category was expanded to show the new Business Class and the Retired Class as separate categories. Immigrant Category:

Country of Last Permanent Residence and Country of Birth:

- Poland was separated out from the Other Eastern Europe category and the Federal Republic of Germany from Other Europe.
- Central and South America are each being shown separately rather than as a combined category,
- . Lebanon has been separated out from Other Middle East.
- . India has been separated out from South Asia.
- . China has been separated out from Other Asia,
- Czech and Polish have each been separated out from Eastern European.

Mother Tongue:

- , Farsi has been separated out from Other Middle Eastern,
- . Tamil has been separated out from Other South Asian,
- Tagalog has been separated out from and Thai combined with Other South East Asian.

As in the 1983 report, a summary of the definitions used by Employment and Immigration Canada for the various immigrant categories is appended at the back of this report. This has been included in response to numerous queries.

SUMMARY

The total number of immigrant landings to Canada with Ontario as the province of intended destination in 1984 was reported by Employment and Immigration Canada to be 41,527, an increase of 1,481 over the 1983 total of 40,036. This is still considerably lower than the 1980 total of 61,950.

Community of Destination

Figures are shown for the same 22 Ontario communities as in the 1983 report; however, Employment and Immigration Canada reduced the number of geographic codes for a short time during 1984 and, consequently, some of the destination figures must be treated as approximations. In fact, some communities are shown as having received no immigrants in 1984, a reflection of the absorption of some ligures into larger geographic areas.

The distribution for communities of intended destination shows 65 percent of Ontario immigrants planning to settle in Metropolitan Toronto. Actually for 1984, the Metro Toronto figures include most of those for Brampton and Mississauga. The 65 percent figure suggests an increase of 3 percent in immigrant settlement in the Metropolitan Toronto-Peel Region area. Otherwise, the geographic distribution of immigrants appear quite similar to previous years with Ottawa attracting 7 percent, followed by Hamilton (4 percent), Kitchener-Waterloo, London and Windsor (2 to 3 percent each) and St. Catharines (1 percent).

Immigrant Category (Table 1)

The immigrant categories are determined by the Federal Government. The 1984 province-wide distribution for the various categories is shown below:

Immigrants Destined for Ontario, 1984

Immigrant Category	Number	Percent
Family Class	21,074	50.8
Assisted Relatives	3,709	8.9
Refugees & Designated Classes	6,792	16.4
Independents	5,955	14.3
Business Class	2,981	7.2
Retired Class	1,016	2.5
Total	41,527	160

Family class immigration declined somewhat in 1984 (to 51 percent compared to 57 percent in 1983), while the assisted relatives and refugees categories showed slight increases. The independents class appears to have declined to 14 from 22 percent the previous year; however, the removal from this category of the business and retired classes (together totalling 10 percent) indicates a slight increase in

Approximately seventy-one percent of the 1984 family class immigrants, 65 percent of assisted relatives, 50 percent of refugees, 65 percent of independents, 68 percent of the business class and 60 percent of the retired intended to settle in Metropolitan Toronto or the greater Toronto area. Comparisons of the immigrant category distributions by community are difficult to make because of the changes in the use of geographic codes in 1984, noted in the Introduction.

Country of Last Permanent Residence (Table 2)

United Kingdom immigration continued to decline proportionately to 8 percent, only 1 percentage point lower than in 1983, but considerable below the 1982 and 1981 levels. Other European immigration continued to decline slightly. Asian immigration, on the other hand, rose to 39 percent, the highest since the 1980 peak of 41 percent. Immigration from the Caribbean and Guyana declined slightly in proportion as did that from the United States while immigration from Central and South America continued its gradual increase. The ten leading source countries or areas for 1984 were the Caribbean and Guyana, Vietnam, Hong Kong, South Asia, the United States, the United Kingdom, Poland).

The following table sets out the percentage distribution of immigrants from source areas for 1980, 1981, 1982, 1983 and 1984:

Immigrants to Ontario from Areas of Last Permanent Residence

Percentages

	0					
Source Area	1980	1981	1982	1983	1984	
United Kingdom	15.0	18.0	15.9	7.7	7.2	
Other Europe	17.3	20.5	24.6	22.0	18.5	
Caribbean and Guyana	10.0	10.9	12.4	13.6	11.4	
Central and South America (excluding Guyana)	2.8	3.4	3.8	5.7	6.3	
United States of America	6.2	7.7	7.3	8.4	7.7	
Asia (excluding Middle East)	41.1	29.5	27.5	34.0	39.2	
Middle East (including Israel)	3.5	4.3	4.2	3.7	4.8	
All Other	4.2	4.8	4.4	4.9	5.0	
Total	100	100	100 100	100	100	

Country of Birth (Table 3)

percentage was 9 percent for Country of Last Permanent Residence compared to 6 percent for Country of Birth. Overall, however, the The proportions of immigrants born in specific countries or within the larger areas shown are again very similar to those for country of last permanent residence. The figures do indicate small numbers of immigrants coming to Ontario from the United Kingdom, the United States, Vietnam, and Hong Kong who were born elsewhere, and again there was a slightly higher proportion of immigrants born in Eastern Europe who immigrated from some other area. The most notable difference was with respect to immigration from Hong Kong where the percentage differences were slight.

Age and Sex (Tables 4 and 5)

the age 22-24 category. This was accompanied by declines in all other age categories from age 15 up, including the seniors category (age 65 and over) which declined by 3 percent. Sixty-eight percent of the 1984 immigrants were over 21, leaving 32 percent who were age 21 The age distribution of 1984 immigrants varied somewhat from the previous year. The most notable change was an 11 percent increase in or less. The percentage of those under 15 increased slightly to 17 percent.

proportioned males in other adult categories (by 11 percent for the 19 to 21 age group and 9 percent for those between 22 and 44). The Female immigrants outnumbered males in 1984 to a much greater extent (3,983) compared to 3,700 in 1983 and only 1,035 in 1982, 1,306 in 1981 and 510 in 1980. As a result, the percentage gap between males and females widened overall to 10 percent, and was again most notable in the 45 to 64 age category where the difference was approximately 60 percent (female) to 40 percent (male). Females also outpercentage difference for seniors (age 65 and over) remained relatively constant with 16 percent more females. Male immigrants outnumbered females by small percentages in all age categories below 19, except for those under 5 where females led males by 4 percentage points.

Years of Schooling (Tables 6 and 7)

The province-wide distribution for years of schooling of 1984 immigrants is summarized below:

Years of Schooling, Ontario Immigrants, 1984

Immigrants Aged 15 and Over Intending to Enter the Work Force	Number Percent	3,597 10.5 6,565 19.1 13,806 40.2 10,337 30.1 60 0.2	
All Immigrants	lumber Percent	8,985 21.6 8,202 19.8 13,927 33.5 10,349 24.9 64 0.2	
	Years of Schooling Nur	Under 5 8, 5 to 8 8, 9 to 12 13, or more 10, Not accounted for	Total 41.

As in 1983, the largest proportion of immigrants, a third, had from 9 to 12 years of schooling. There was virtually no change in the proportions in the other educational categories as well; the percentage of those with 13 or more years of schooling remained at 25 percent, and the proportion of those with 8 years or less was 41 percent, just slightly above the 1983 figure. There was virtually no change, either, in the educational levels of those 1984 immigrants intending to enter the work force: again, 40 percent had 9 to 12 years of schooling while 30 percent had 13 or more. Nineteen percent had from 5 to 8 years, leaving 11 percent with less than 5 years.

Work Force Participation and Intended Occupation (Tables 8 and 9)

Seventy-three percent of the 1984 immigrants 15 years of age and over intended to enter the work force, a slight increase from the 72 percent in 1983. The remainder included students, spouses and others. The proportion of unidentified occupations rose slightly to 47 percent of the identified occupations; 11 percent of 1984 immigrants were occupational areas were manufacturing, mechanical and operating (13 percent); service (11 percent); and clerical (6 percent). headed for professional or technical occupations and 3 percent for managerial or administrative positions.

Mother Tongue (Table 10)

over 1983, while South Asian languages declined slightly, to 9 percent. Eastern European languages declined slightly. Spanish was the Seventy-four percent of 1984 immigrants to Ontario reported a non-English mother tongue, an increase over the 71 percent in 1983. The percentage of immigrants with English mother tongue continued to decline in 1983 to 26 percent compared to 29 percent in 1983 and mother tongue of 6 percent of Ontario's 1984 immigrants. A summary table of the 1984 mother tongue distribution for Ontario is set out 35 percent in 1982, while the total Asian figure rose to 41 percent (35 in 1983). English was followed by Cantonese (16 percent in 1984, compared to 2 percent in 1983). South East Asian mother tongues were characteristic of 12 percent of 1984 immigrants, up 4 percent

Percent	26.0	9.0	25.2	41.0	7.3	100
Number	10,710	258	10,471	17,045	3,043	41,527
Mother Tongue	English	French	Other European	Asian	Other	Total

Official Language Ability (Table 11)

The proportion of immigrants without ability in either English or French increased to 47 percent in 1984 compared to 44 percent in 1983 and 39 percent in 1982, while the proportion with English language ability only declined to 56 percent. Three percent knew either French only or both English and French.

APPENDIX

IMMIGRANT CATEGORY - DEFINITIONS*

Canada's Immigration Act sets forth three basic classes of admissible immigrants: the family class, Convention refugees, and independent and other immigrants (including assisted relatives).

FAMILY CLAS

Canada. The Act specifies eight categories of relatives eligible for admission under the family class. Individuals in the family class will This class consists of certain close relatives sponsored by a Canadian citizen or permanent resident at least 18 years of age and residing in not be assessed under the point system, but must meet specified standards. The sponsoring relative in Canada is required to sign a statement promising to provide for the lodging, care and maintenance of the application and accompanying dependants, for a period of up

CONVENTION REFUGEES

The refugee class is based on the definition from the United Nations Convention and Protocol Relating to the Status of Refugees. Refugees seeking resettlement in Canada are assessed against factors relating to their adaptability to Canadian life and on the amount of settlement assistance available to them in Canada, or are admitted on humanitarian grounds in times of crisis.

INDEPENDENT AND OTHER IMMIGRANTS

This class includes assisted relatives, entrepreneurs and self-employed (now included in the Business Class), retired persons (shown separately) and others who apply to immigrate on their own initiative at Canadian government offices abroad. Except for retirees, persons in this class are assessed and selected according to the point system. (See below for definitions.)

Assisted Relatives

These are people, other than members of the family class, who have kin in Canada willing to help them get established here. The Immigration Act specifies the categories of relatives eligible to apply under this category. The point system applies.

Business Class

This class includes entrepreneurs and self-employed immigrants. The Immigration Regulations 1978 - Amendment October 27, 1983 redefined "entrepreneur" and "self-employed" as follows:

Entrepreneur

commercial venture in Canada whereby employment opportunities will be created or maintained for more than one Canadian An immigrant who intends and has the ability to establish or to purchase a substantial interest in the ownership of a business or citizen or permanent resident. (S)he will also participate actively in the management of the business. The business or commercial venture must also make a significant economic contribution.

Self-employed

An immigrant who intends and has the ability to establish a business in Canada that will create an employment opportunity for himself/herself and that will make a significant contribution to the economy, or to the cultural and artistic life of Canada.

Retired Person

An immigrant who is at least 55 years of age and does not intend to seek or accept employment in Canada.

^{*}Source: The above descriptions have been excerpted from materials published by Employment and Immigration Canada. Readers wishing further detail are referred directly to that source or to the Immigration Regulations, 1978 - Amendment, October 27, 1983.

IMMIGRANT ARRIVALS TO ONTARIO IMMIGRANT LANDINGS TO CANADA WITH ONTARIO AS THE PROVINCE OF INTENDED DESTINATION

JANUARY 1 TO DECEMBER 31, 1985

INTRODUCTION

The summary and tables presented in this report pertain to the total number of immigrants in Canada in the 1985 calendar year for whom Ontario was the province of intended destination.

SUMMAR

in 1985 was reported by Employment and Immigration Canada to be 40,730, a decrease of 797 from the 1984 total of 41,527. This total represents 48 percent of Canada's immigrants in 1985 as The total number of immigrant landings to Canada with Ontario as the province of intended destination compared to 47 percent in 1984.

COMMUNITY OF DESTINATION

In 1984, Employment and Immigration Canada reduced the number of geographic codes for a short time and, consequently, some of the destination figures had to be treated as approximations. In fact, some communities were shown as having received no immigrants in 1984, a reflection of the absorption of some figures into larger geographic areas. Also in 1984, the Metro Toronto figures included most of those for Brampton and Mississauga. This was changed for 1985, with Brampton and Mississauga reported separately.

amalgamated with St. Catharines to correspond with the St. Catharines - Niagara Census Metropolitan Area and Ajax has been added as a separate community. The total number of communities of intended The communities of destination have been changed from the 1984 report. Niagara Falls has been destination remains at 22.

IMMIGRANT CATEGORY (Table 1)

The 1985 province-wide The immigrant categories are determined by the Federal Government, distribution for the various categories is shown below:

Immigrants Destined for Ontario, 1985

Immigrant Category	Number	Percent
Family Class Assisted Relatives	19,089	46.9
efugees & Design ndependents	8,216	20.2
usiness Cl etired Cla	2,615	2.3
TOTAL	40,730	100

Family Class immigration declined somewhat in 1985 (to 47 percent compared to 51 percent in 1984), while the refugees and designated classes category showed an increase from 16 percent to 20 percent percent. The independents class increased slightly from 14 percent the previous year to 16

46 percent of refugees, 61 percent of independents, 67 percent of the business class and 60 percent of the retired intended to settle in Metropolitan Toronto. Comparisons with the 1984 immigrant category distributions by community are difficult to make because of the changes in the use of Approximately 61 percent of the 1985 family class immigrants, 58 percent of the assisted relatives, geographic codes (as noted in the 1984 report),

COUNTRY OF LAST PERMANENT RESIDENCE (Table 2)

continued to decline slightly. Asian immigration declined to 36 percent from 39 percent in 1984. Immigration from the Caribbean and Guyana rose to 14 percent, the highest level since 1978. The percentage point lower than in 1984, but considerably below the 1982 and 1981 levels. Other European immigration proportion from the United States was identical to 1984 (7.7percent), while immigration from Central proportionately to 6 percent, 1 United Kingdom immigration continued to decline and South America continued its gradual increase. The ten leading source countries or areas for 1985 were the Caribbean and Guyana, Vietnam, Hong Kong, the United States, the United Kingdom, South Asia, Poland, Central America, Eastern Europe (excluding Poland) and the Philippines. The following table sets out the percentage distribution of immigrants from source areas for the period 1980 to 1985:

IMMIGRANTS TO ONTARIO FROM AREAS OF LAST PERMANENT RESIDENCE

PERCENTAGES

OTHER EUROPE: Portugal, Italy, Greece, Federal Republic of Germany and all other European countries MIDDLE EAST: Israel, Iran, Lebanon and all other Middle Eastern countries ASIA: India, Hong Kong, Taiwan and all other S. Asian countries * Constituent countries of Source Area (CLPR);

COUNTRY OF BIRTH (Table 3)

A comparison of figures for Country of Last Permanent Residence and Country of Birth, indicates that most immigrants coming to Ontario were born in, and emigrated from, the same country. The most for Country of Last Permanent Residence compared with 5.7 percent for Country of Birth and those from Hong Kong with 8.4 percent Country of Last Permanent Residence and 5.8 percent Country of Birth. notable differences were with respect to immigrants from China, where the percentage was 2.0 percent Other areas showing a slight difference include the United Kingdom with 6.4 percent for C.L.P.R. and 5.7 percent for Country of Birth, and the United States with 7.7 percent for C.L.P.R. and 6.5 percent for Country of Birth.

AGE AND SEX (Tables 4 and 5)

The age distribution of 1985 immigrants varied somewhat from the previous year. The most notable change was a 10 percent decrease in the seniors' category (age 65 and over) as well as a 9 percent decrease in the 45 to 64 age category. Sixty-eight percent of the 1985 immigrants were over 21, leaving 32 percent who were age 21 or less. The percentage of those under 15 remained the same as the 1984 figure of 17 percent.

although this represented a decrease from 1984 when female immigrants outnumbered males by 18 percent . The This gap was most notable in the 45 and over age category, where the difference was 59 percent female percentage gap between females and males also decreased from 10 percent in 1984 to 6 percent in 1985. Female immigrants continued to outnumber males (by 2294 or 12 percent) in 1985, to 41 percent male.

YEARS OF SCHOOLING (Tables 6 and 7)

summarized below: schooling of 1985 immigrants is The province-wide distribution for years of

Years of Schooling, Ontario Immigrants, 1985

ALL IMMIGRANTS

Percent 21.5	19.3	34.1	25.1	100
Number 8739	7860	13892	21	21 40730
Years of Schooling Under 5	5 to 8	9 to 12	13 or more	Not accounted for TOTAL

There was virtually no change in the proportions in the other educational categories as well; the percentage of those with 13 or more years of schooling remained at 25 percent, and the porportion of As in 1984, the largest proportion of immigrants, a third, had from 9 to 12 years of shcooling. those with 8 years or less was 41 percent, which was identical to the 1984 figure.

IMMIGRANTS AGED 15 AND OVER INTENDING TO ENTER THE WORK FORCE

Percent 10.3	18.3	41.0	30.3	100
Number 3462	6165	13790	10213	33649
Years of Schooling Under 5	5 to 8	9 to 12	13 or more	Not accounted for TOTAL

There was virtually no change, either, in the educational levels of those 1985 immigrants intending to enter the work force: 41 percent had 9 to 12 years of schooling while 30 percent had 13 or more. Eighteen percent had from 5 to 8 years, leaving 10 percent with less than 5 years.

6 Ø WORK FORCE PARTICIPATION AND INTENDED OCCUPATION (Tables 8

a slight increase from the 73 percent in 1984. The remainder included students, spouses and Seventy-four percent of the 1985 immigrants 15 years of age and over intended to enter the

occupations and 3 percent for managerial or administrative positions. Other predominant The proportion of immigrants with unidentified occupations decreased slightly to 45 percent. Of those with identified occupations; 12 percent of 1985 immigrants were headed for professional or technical occupational areas were manufacturing, mechanical and operating (14 percent); service (12 percent); and clerical (7 percent).

MOTHER TONGUE (Table 10)

Seventy-two percent of 1985 immigrants to Ontario reported a non-English mother tongue, a decrease percent in 1984. The percentage of immigrants with English mother tongue rose in 1985 to 28 in 1984. English was followed by Cantonese (14 percent in 1985, compared to 16 percent in 1984 and 2 Asian mother tongues were characteristic of 12 percent of 1985 immigrants, while South Asian languages declined slightly to 7 percent. Eastern European languages remained at 4 percent and Spanish rose to 8 percent in 1985 from 6 percent in 1984. A summary table percent compared to 26 percent in 1984, while the total Asian figure decreased to 38 percent from 41 of the 1985 mother tongue distribution for Ontario is set out below: in 1983). South-east

APPENDIX

IMMIGRANT CATEGORY - DEFINITIONS*

Canada's Immigration Act sets forth three basic classes of admissible immigrants: the family class, Convention refugees, and independent and other immigrants (including assisted relatives).

FAMILY CLAS

This class consists of certain close relatives sponsored by a Canadian citizen or permanent resident at least 18 years of age and residing in Canada. The Act specifies eight categories of relatives eligible for admission under the family class. Individuals in the family class will not be assessed under the point system, but must meet specified standards. The sponsoring relative in Canada is required to sign a statement promising to provide for the lodging, care and maintenance of the application and accompanying dependants, for a period of up

CONVENTION REFUGEES

The refugee class is based on the definition from the United Nations Convention and Protocol Relating to the Status of Refugees. Refugees seeking resettlement in Canada are assessed against factors relating to their adaptability to Canadian life and on the amount of settlement assistance available to them in Canada, or are admitted on humanitarian grounds in times of crisis.

INDEPENDENT AND OTHER IMMIGRANTS

This class includes assisted relatives, entrepreneurs and self-employed (now included in the Business Class), retired persons (shown separately) and others who apply to immigrate on their own initiative at Canadian government offices abroad. Except for retirees, persons in this class are assessed and selected according to the point system. (See below for definitions.)

Assisted Relative

These are people, other than members of the family class, who have kin in Canada willing to help them get established here. Immigration Act specifies the categories of relatives eligible to apply under this category. The point system applies.

Business Class

This class includes entrepreneurs and self-employed immigrants. The Immigration Regulations 1978 - Amendment October 27, 1983 redefined "entrepreneur" and "self-employed" as follows:

Entrepreneur

commercial venture in Canada whereby employment opportunities will be created or maintained for more than one Canadian An immigrant who intends and has the ability to establish or to purchase a substantial interest in the ownership of a business or citizen or permanent resident. (S)he will also participate actively in the management of the business. The business or commercial venture must also make a significant economic contribution.

Self-employed

An immigrant who intends and has the ability to establish a business in Canada that will create an employment opportunity for himself/herself and that will make a significant contribution to the economy, or to the cultural and artistic life of Canada.

Retired Person

An immigrant who is at least 55 years of age and does not intend to seek or accept employment in Canada.

*Source: The above descriptions have been excerpted from materials published by Employment and Immigration Canada. Readers wishing further detail are referred directly to that source or to the Immigration Regulations, 1978 - Amendment, October 27, 1983.
